

Contains EPA registered pesticide that protects the foam from **attack by mice, birds, bats and squirrels.**

Akfix[®]
■ MASTER OF SOLUTIONS ■

**CREATES
PERMANENT
SOLUTIONS**

Cures fast and expands while curing.
Excellent adhesion to most common surfaces.

High gap filling capacity.

Cured foam can be cut, sanded, painted and plastered.

It can be applied even in cold conditions such as -5°C (23°F).

***It also prevents ants,
cockroaches, spiders and bees.***

“ It is used to fill gaps and cracks in garages, attics, basements, under sinks, pipes, electrical cable penetrations or any area where pests / insects may enter. ”
