Akfix®

HYGIENE

HAND SANITIZER

Alcohol Based Hygienic Hand Rinse Agent

Excellent Formulation

Product Composition, Ethyl Alcohol, Glycerin, Hydrogen Peroxide, Perfume

- It prevents the formation of bacteria.
- It easily disinfects hands without water anywhere like common areas; office, school, trip, picnic.
- It is especially suitable for use in areas requiring hygiene such as hospital, kitchen, production facilities
- The contained glycerin do not dry the skin and keep it soft.
